

Dear Community Builder,

The Wainwright & District Minor Football Association came to life over two years ago, a combination of the High School Program and the Pee wee programs. The WDMFA was created to promote the sport of football to Pee wee, Bantam and Senior aged youth and community members in the community of Wainwright and its surrounding areas. The WDMFA strives to promote a safe, healthy and cost effective environment for **all kids** to play Football. Football provides participants with physical, social and emotional well being!

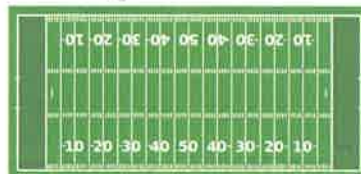

Currently all three teams practice and play on one field "Commando Field" and is in major need of a new playing surface. After decades of use the field has become uneven which can cause players to slip and lose their footing. Our goal is to redo the playing surface properly to enable our kids to have a safe and enjoyable playing surface for years to come.

Sponsorship received from local community partners, such as you, is absolutely critical in ensuring a lasting and positive community football association. Sponsorship received would not go unnoticed by the players, community, or fans. Sponsors not only benefit from widespread advertising, but will also receive a receipt for their contribution, and the knowledge that they are contributing to the success and vitality of Minor Football in Wainwright and surrounding areas.
